linkedin.com/in/huzaifa-amir-rasheed | github.com/RCS504 | rcs504.github.io/Portfolio

Second-year Computer Science student (2:1, 67.5%) seeking a 12-month software engineering or cyber security placement, available from summer 2027.

Right to work: UK Student visa (valid to October 2029). The placement year is part of the degree, so no visa sponsorship is needed.

EDUCATION

Queen's University Belfast | BSc (Hons) Computer Science with Professional Experience 2025 - 2029 (expected)

Year 1: 67.5% (2:1) | Queen's Excellence Award | Top modules: Introduction to Cyber Security 77, Object-Oriented Programming 73, Computer Architecture 73

Year 2: Software Engineering and Systems Development, Data Structures and Algorithms, Systems Security and Cryptography, Theory of Computation

QUB International Study Centre | International Foundation Programme, Science and Engineering 2024 - 2025

International British School Kuwait | IGCSEs incl. Mathematics 8, Computer Science 7, Physics 7 | IELTS 7.5 2016 - 2024

TECHNICAL SKILLS

Languages: Java, Python, SQL, JavaScript, HTML, CSS

Tools: Git, GitHub, GitHub Pages, MySQL, Chart.js, Visual Studio Code, Eclipse, Claude (AI-assisted development)

Concepts: Object-oriented design, data structures and algorithms, relational database design, CRUD web applications

Learning: C++ (basic, currently learning through the Data Structures and Algorithms module)

PROJECTS

Food Aid Distribution System | University group project, team of 4 | MySQL, JavaScript, Chart.js Mar - May 2026

- Took ownership of the full technical build (database, backend, frontend integration and reporting) and delivered on schedule and deployed to QUB EEECS hosting.
- Designed a 6-table relational MySQL schema with foreign-key constraints and validation checks, modelled on World Food Programme hunger metrics.
- Built 6 JavaScript management pages with full CRUD (create, read, update, delete) and wrote analytical SQL reports on distribution trends, visualised with Chart.js.

Airline Booking System | Solo project | Java | github.com/RCS504/airline-booking-system Jul - Aug 2026

- Built a console booking engine covering route listing, flight search, seat maps, booking, cancellation and flight management, with separate model, system and UI layers.
- Used HashMap lookups to prevent double-booking and double-cancellation, and generated unique 6-character booking references with collision detection.
- Added exception handling and null checks to user input, developing the system incrementally across 27 Git commits.

Personal Portfolio Website | Solo project | HTML, CSS, JavaScript | rcs504.github.io/Portfolio Sep 2026

- Hand-coded without frameworks or templates and deployed on GitHub Pages, with a custom image carousel for the Food Aid project.
- Found through manual testing and fixed a bug where the embedded Airline Booking System demo failed to display after being hidden, by reloading it whenever the project is selected.

Educational Climate Game | Software Engineering team project, team of 7 2026 - 2027 (in progress)

- Designed and pitched the core concept for an educational game on UN SDG 13 (Climate Action), adopted by the team.

LEADERSHIP AND VOLUNTEERING

Course Representative, Computer Science | Queen's University Belfast 2025 - present

- Represent around 300 students to academic staff, reappointed for 2026-27.
- Escalated cohort concerns about a Procedural Programming exam to the Course Director, leading to a review with module owners, and secured clarified revision guidance for a Computer Architecture final.

Event Steward (Volunteer) | Growing Up Muslim Conference, Belfast Dec 2025

- Coordinated seating, crowd flow and attendee direction for 1,800 attendees over a 10.5-hour day.

DEVELOPMENT AND LANGUAGES

- AWS Cloud Practitioner Essentials, AWS Skill Builder (in progress).
- Python for Everybody Specialization, University of Michigan via Coursera (5 courses).
- Ongoing Java data structures and algorithms practice: github.com/RCS504/neetcode-submissions
- Languages: English (fluent), Urdu (native), Punjabi and Hindi (conversational).
